

STAINLESS STEEL COLLECTION TROUGHS

For storing water-endangering and aggressive media

- ✎ Made from stainless steel # 1.4301, so ideally suitable for storing acids and alkalis
- ✎ Support levels with either fire galvanized or stainless steel grids
- ✎ 100 mm floor clearance for fork-lift transport
- ✎ Stainless steel collection troughs are particularly suitable for use in the electroplating, chemical and food industries.

CW4-VA, Article No. P69-3002-A

KTC-ZW-VA, Article No. P69-3004-A

CW2-VA, Article No. P69-3001-A

Models CW2 and CW4 are particularly suitable for storing 200 litre drums or small containers.

KTC-OS-VA, Article No. P69-3003-A

Models KTC-OS and KTC-ZW are particularly suitable for storing KTCs / IBCs.
