

Collection trough systems

WSP-4L-OS with 2 x STR-3 stacking racks and can support

Placing a 200 litre drum horizontally in the top storage level is easier said than done. Using the fork tips of a fork-lift truck an environmental risk is too great and is therefore forbidden. The stacking rack is an officially approved solution that meets the practical requirements of day-to-day work.

WSP-2-OS with 2 x STR-1 stacking racks and can support

- Max. 3 stacking racks on top of one another
- All stacking racks except STR-1 can be combined with one another
- Steel drums with a capacity of up to 220 L can be stored**
- The racks are protected against falling over by being anchored to one another and to the trough
- Water protection pallets with removable fire galvanized grid supports

Shelving systems for hazardous substances

Safety cabinets

Open-air storage systems / projects

It is done like this:

The fork-lift truck is used to lift up a rack. The empty drums are removed and replaced by full ones and the rack is replaced by the fork-lift truck.

See practical info on pages 60 and 94!

WSP-8-OS with 1 x STR-G and 1 x STR-2 stacking racks and can support

Fire protection container systems

Gas cylinder storage systems

Safety containers, handling systems, ...

WSP-4-OS with STR-2+STR-3 stacking racks and can support

WSP-4-OS with 2 x STR-2 stacking racks and can support

Possible combinations:
 WSP-2-OS with STR-1 or STR-3
 WSP-4-OS with STR-2, STR-3, STR-G
 WSP-4L-OS with STR-1 or STR-3
 WSP-8-OS with STR-2, STR-3, STR-G
 All water protection pallets are also available without stacking racks.

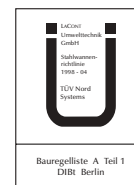

Accessories	Can support	Rotating roller support
Article No.	Z50-1926-A	Z50-1925-A

E2 with STR-3 + STR-G stacking racks and can support

E2 with 2 x STR-G stacking racks

E2 with STR-G stacking rack

Simply safe, simply good. Four fork-lift tip openings mean that each rack can be safely picked up and put down with a fork-lift truck. Take off the empty drums, put on the new ones and return the rack to its position. All racks are anchored to prevent them falling over.

- ✎ All stacking racks are fire galvanized
- ✎ Base and push-in troughs available lacquered or **fire galvanized**
- ✎ Push-in trough collection volume 205 L
- ✎ Push-in trough without grid support

Stopcocks can be found on page 152 !

See practical info on pages 60 and 94!
