Open-air storage systems / projects

Fire protection container systems

Gas cylinder storage systems

Safety containers, handling systems, ...

The safety storehouse is a tried and tested, favourably-priced mobile outdoor storage facility for hazardous substances.

It can be transported unloaded at any time using a fork-lift truck or crane.

Thanks to its modular design there are 8 types for selection. This allows the system to be optimally adapted to suit the user's actual requirements.

If equipped with shelving the safety storehouse is ideally suited for use as a walk-in store for small containers.

**Drum carts
can be found
on page 160 !**

Equipped with shelving

Special container construction

- ✦ Made from specially profiled galvanized sheet steel
- ✦ Reinforced roof and base profile frames
- ✦ Continuous liquid channel, except in door area
- ✦ **Galvanized steel double door with ventilation slots, 1960 mm wide, lockable with safety lock**
- ✦ Model SLH 3 x 2: door width 1760 mm
- ✦ Built-in weather-protected ventilation openings in door and opposite rear panel
- ✦ **Lifting attachments for cranes as standard**

Double door in longer side as standard, doors in shorter side on request!

Our standard: double-door and lifting attachments for cranes!

SLH 1 x 2, galvanized with lacquered exterior, Article No. H61-6101-B, with optional shelving

Collection trough with support grid

- ✦ Made from 3 mm **fire galvanized** sheet steel
- ✦ Max. load 1000 kg / m², higher loads on request
- ✦ Floor clearance 60 mm
- ✦ Collection volume 10% of possible total storage capacity

Optional drive-on ramp for drum carts

Technical forced ventilation, ex-proof

Our standard: double-door and lifting attachments for cranes!

SLH 2 x 2, galvanized, Article No. H61-2102-B

- For the storage of VbF class AI to AIII and B hazardous substances and water-endangering substances
- For the active storage of class AI to AIII and B hazardous substances a forced ventilation system is required.
- Supplied ready-assembled

Equipped with shelving for use as small container storehouse

Also available with thermal insulation and heating, see pages 104 / 105!

Open-air storage systems / projects

Safety storehouses for the storage of aggressive media (collection trough with PE insert) available on request!

Accessories: inner fittings	Article No.
Shelf support, vertical, premounted	H61-9001-B
Shelf arm, horizontal, 500 mm*	H61-9002-B
Grid-type shelf, W x D mm = 900 x 500 mm	H61-9003-B
Grid-type shelf, W x D mm = 1900 x 500 mm	H61-9004-B
Grid-type shelf, W x D mm = 2900 x 500 mm	H61-9005-B
Ramp L x W x H mm = 1200 x 1000 x 320 for drum carts	H61-9007-C
Ramp L x W x H mm = 2900 x 1000 x 320 for pallet trucks	H61-9008-C

* Max. load per shelf arm 50 kg

Accessories: electric fittings (premounted in factory)	Article No.
Forced ventilation, ex-proof	H61-9006-C
Damp-proof lamp 230 V	H61-9009-B
Lamp 230 V, ex-proof	H61-9010-B

If a switchbox (H63-9007-A) is also ordered then the electrical fittings will be fully mounted and wired up to the exterior switchbox. The only on-site requirement to be provided by the customer is a leak-current-protected electricity supply and the connection itself.

Grid-type shelving set, galvanized, Article No. H61-9012-B

Fire protection container systems

Gas cylinder storage systems

Accessories: shelving sets	Article No.
Grid-type shelving set with 3 storage levels, premounted on the container wall, galvanized, dimensions W x D mm = 900 x 500	H61-9011-B
Grid-type shelving set with 3 storage levels, premounted on the container wall, galvanized, dimensions W x D mm = 1900 x 500	H61-9012-B
Grid-type shelving set with 3 storage levels, premounted on the container wall, galvanized, dimensions W x D mm = 2900 x 500	H61-9013-B
