

## OUTDOOR PALLET RACKS WITH COLLECTION TROUGH

Outdoor pallet racks are used wherever quick and favourably-priced solutions to storage problems are required. Supplied in kit form; after only a short assembly time the rack is ready for use as a store for hazardous substances.

- ✎ Can be extended as required due to modular design with basic and extension units (each unit 2700 mm wide)
- ✎ Galvanized support frames and trapezoidal roof
- ✎ Powder-coated crossbeams, RAL 7035
- ✎ Projecting roof as weather protection
- ✎ Galvanized sidewalls available as accessories
- ✎ Fire galvanized collection trough without support grid
- ✎ Suitable for storage of goods on pallets and 1000 L containers
- ✎ Rack statics can be tested
- ✎ Favourably priced delivery in kit form for self-assembly
